

Van Muylem Photogravure / Digital Imaging

Newsletter nr. 1

15 december 2006

Van Muylem Photogravure / Digital Imaging

is pleased to announce the launching of his website

www.vanmuylem.com

and the opening of the online store for creative gifts.

A website dedicated to contemporary photogravure.

From *bold ideas*, *foresight* and *endeavour*
we build our business from the attic chambre
to an international leading photogravure company
with *innovative products* and *a future of promise*.

Art books

illustrated with our photography

Haffke frames

bronze- and ivory photoframes

beautiful minatures with german signature

Murals

large format photography for decoration

Photogravures

original gravures, prints with certificate of authenticity

Digital imaging

The *heart* and the *motor* of our company. From here it all starts !

In the following pages you see how we use photography as final art,
based on traditional craftsmanship.

As we embark on our 24th year of business, we are more committed than ever
to ensure your next project will be as succesful as your first,
giving full post-processing on stunning images for every application.

We know how te meet the highest standards in industry, so prove
three art books illustrated with images we processed to custom workspaces,

Guy Leclercq - De Tafel - oil on canvas 1,2 / 1,2 m

Photogravure

As one of the few studios worldwide, we offer copperplate dust-grain photogravure,
an almost forgotten art
despite the fact being the finest method ever for picture making.

The beauty of these gravures lies within the aesthetics of prints on handmade paper,
razorsharp copper lines and transparant intaglio inks.

Photogravures are available for portraits on demand, certificates and fine art prints.
Please consider these prints as a wise investment or use for decoration.

Image from the collection Blacklines, K. Tilley

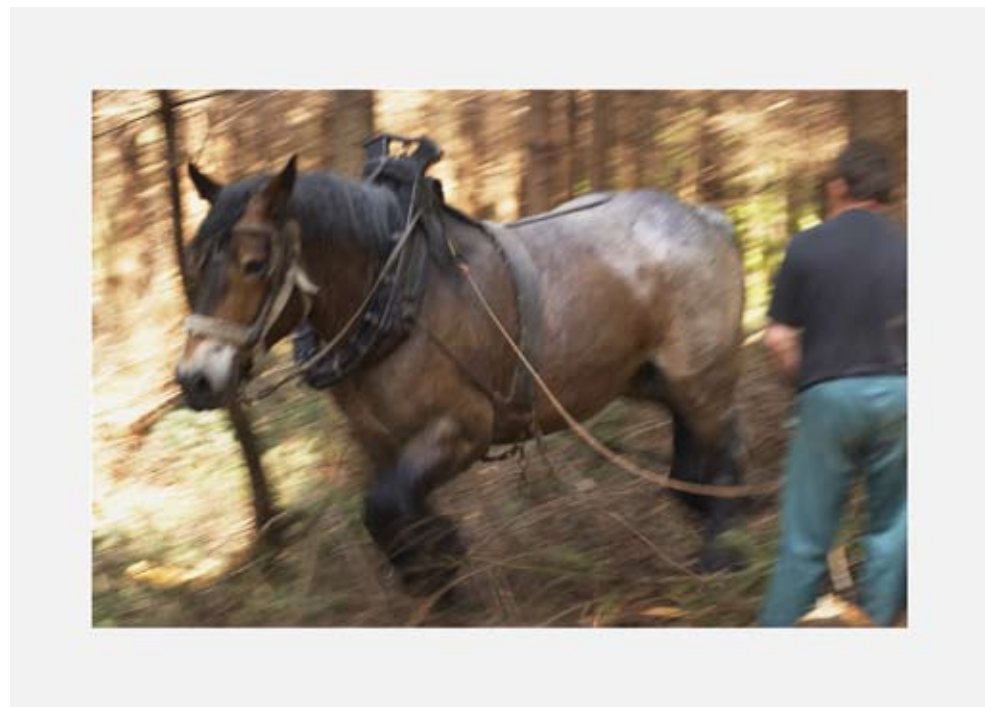

Murals

Colour photos printed on metallic paper with an almost 3D- look.

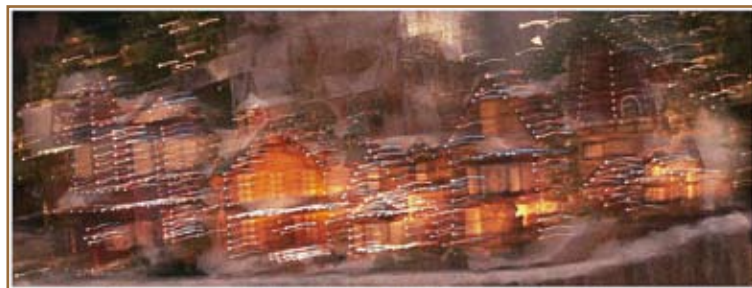

Murals are printed in a *very limited edition of six*,
signed and numbered on label on verso.

The photos are plexiglass mounted and have a tubular steel hanging frame
enabling museum quality hanging.
